

MD2000C vital signs monitor

MD2000C is a new mains / battery operated compact vital signs monitor.

This powerful and portable platform offers healthcare professionals a range of measurements which includes non-invasive blood pressure, pulse rate, oxygen saturation, perfusion index, bluetooth ear temperature, EtCO₂ (optional), and bluetooth glucometer (optional).

It works with spot-check and continuous monitoring modes.

The monitor completes an ear temperature reading in less than or equal to 5 seconds, and an SpO₂ and PI reading in less than or equal to 30 seconds.

Clear 7" color display
with large easy to
read information

Lightweight and
portable, weight
less than 2kg

Measures NIBP in
60 seconds as
the cuff inflates

200-reading
memory

Finishes single patient
measurement in
about 60 seconds
